PROPOSED ADDITION TO GENERAL PLAN AMENDMENT, CONSERVATION ELEMENT

#22

Introduction

Air quality standards are set by both the state and federal government. The Bay Area Air Quality Management District (BAAQMD) has the responsibility to monitor and enforce the standards in the Bay Area. Planning for compliance with the federal air quality standards has been assumed in part by the Association of Bay Area Governments (ABAG) which, with the Bay Area Air Quality Management District and the Metropolitan Transportation Commission (MTC), prepared the Air Quality Management Plan (AQMP) for the San Francisco Bay Region. The Air Quality Management Plan focuses on hydrocarbons and oxidants. Among the actions recommended by the AQMP are many policies and programs which local governments can undertake to help achieve improvements in air quality.

While air quality is often regarded as a regional problem, it is fundamental that the land use and growth decisions which the cities and county control will have a profound effect on the success of whatever technology is available regionally to combat air pollution. The land use, economic development, transportation, energy and environment policies which form the foundations of this plan are all considered of vital importance if the quality of the air in the county is to be protected, especially:

- staging orderly growth in urban service areas,
- balancing of growth rates and improvements to the transportation system,
- reducing long distance commuting,

- increasing use of public transit, carpools and vanpools,
- preserving open lands outside of urban service areas.

Goal - To Preserve and Maintain Air Quality*

Policies

o Development projects shall be located and designed in a manner which will conserve air quality and minimize direct and indirect emissions of air contaminants; e.g. direct emissions should be reduced through energy conserving construction which minimizes space heating; indirect emissions should be reduced from motor vehicle travel generated by the project.

o Development projects which, separately or cumulatively with other projects, would cause air quality standards to be exceeded or would have significant adverse air quality effects through direct and/or indirect emissions, would not be approved unless the (City/County), after consultation with the Bay Area Air Quality Management District, explicitly finds that the project incorporates feasible mitigation measures or that there are overriding reasons for approving the project.

o Encourage transportation modes which minimize single passenger motor vehicle use and the resulting contaminant emissions. Alternate modes to be encouraged include:

---

*Amended June 18, 1986.

public transit, ridesharing, shortened and combined motor vehicle trips to work and to services, use of bicycles and walking (Also in Transportation/Circulation Element.)

- o Encourage employers to foster employer-based transportation control measures such as ridesharing, use of public transportation, bicycling, and walking for employees. (Also in Transportation/Circulation Element.)

- o Encourage new residential development to include housing affordable to employees of work places in (City/County) and its immediate environs in order to minimize commuting and the motor vehicle emissions generated thereby. (Also in Housing Element.)

- o This plan shall be interpreted and implemented consistently with the Bay Area regional Air Quality Management Plan, as updated from time to time.

- o Guidance* of the Bay Area Air Quality Mangement District shall be sought in the review of major or significant projects, through the referral to BAAQMD of such Environmental Impact Reports and negative declarations for consultation.

*Amended June 18, 1986, see attachment listing thresholds for referral.

John L. Molinari, President

San Francisco Board of Supervisors
City Hall
San Francisco, CA 94102

Dear Mr. President and Members of the Board:

The Roman Catholic Archbishop of San Francisco wishes to sponsor the application of Old St. Mary's Church for a grant from the Office of Historic Preservation of funds to be used for historic preservation work on that landmark structure. Funding of a maximum of $300,000 is available pursuant to the California Park & Recreational Facilities Act of 1984.

The relevant Grant Application, Page 9 (Match requirements) sets forth the State's requirement that the "applicant's matching share" shall be "at least ten percent and no more than seventy percent", and that "larger projects will require larger matching shares."

The Archdiocese of San Francisco, by this letter of commitment, is willing to guarantee matching funds of at least ten percent and no more than seventy percent of historic preservation project costs for Old St. Mary's Church.

Therefore, it is respectfully requested of the Board of Supervisors of the City & County of San Francisco that it resolve to approve the filing of the application of Old St. Mary's Church for the Historic Preservation Grant assistance project.

Sincerely yours,

WHEREAS, The California Transportation Commission adopted in their 1986 State Transportation Improvement Program a project to construct an interchange on Interstate Route 280 near Islais Creek; and

WHEREAS, The City and County of San Francisco has lobbied for this project for many years; and

WHEREAS, Development of Pier 94/96, India Basin Industrial Park and Hunters Point Shipyard areas would generate significant increases in truck traffic; and

WHEREAS, Residents and merchants have long complained of truck traffic through their neighborhood; and

WHEREAS, An interchange at said location would allow access to Routes 280 and 101 to and from the south without having to use Third Street through residential and neighborhood commercial areas; and

WHEREAS, The California Department of Transportation (CALTRANS) is the lead agency in planning, designing and constructing said interchange; and

WHEREAS, The City and County of San Francisco Department of Public Works has offered to participate in the various phases of said project; and

WHEREAS, CALTRANS has agreed to the City's participation and will reimburse the City and County of San Francisco 100% of the costs incurred in the planning phase of said project; now, therefore, be it

WHEREAS, Section 51.5 of the Personal Rights Article of the California Code provides in pertinent part that no business establishment of any kind shall discriminate against any person on account of sex, and

WHEREAS, there exists in San Francisco a pervasive and unjustified system of sex discrimination by laundries in that many laundries charge women a vastly larger amount of money to launder a man-tailored shirt than they charge men, and

WHEREAS, there exists no justification for such sex discriminatory pricing when the shirts brought in by women are essentially identical to shirts brought in by men, and

WHEREAS, Section 52(c) of the Personal Rights Article of the California Code provides for both individual remedies, and for authority to seek injunctive relief by the Office of the District Attorney, and

[Foreign Consulates]

MEMORIALIZING THE PRESIDENT OF THE UNITED STATES TO REQUEST AND THE UNITED STATES CONGRESS TO APPROPRIATE IN LIEU PAYMENTS TO LOCAL GOVERNMENTAL ENTITIES AS REIMBURSEMENT FOR REVENUE LOST BECAUSE OF PROPERTY AND SALES TAX EXEMPTIONS FOR FOREIGN CONSULATES AND CONSULAR EMPLOYEES IN THE UNITED STATES.

WHEREAS, The Vienna Convention on Consular Relations (21 U.S.T. 78) and other bilateral consular conventions executed between the United States and foreign countries exempt foreign consulates and the residences of the principal consular officer from the payment of property taxes, and foreign consulates and consular employees, in varying degrees, also from the payment of sales taxes; and

WHEREAS, Foreign consulates and the residences of the principal consular officer owned by foreign governments in the City and County of San Francisco are valued at $26,226,466 and the taxpayers of the City and County of San Francisco lose approximately $298,981 in property tax revenue annually; and

WHEREAS, Neighboring cities also suffer from a comparable loss of tax revenues because of such exemptions; and

WHEREAS, Foreign consulates and consular employees also are exempt, in varying degrees, from the payment of sales taxes which contribute significantly to the financing of public transportation and other needed state-assisted services in San Francisco, the Peninsula, and elsewhere in the Bay Area; and

WHEREAS, It is estimated by the United States Department of State that approximately $70,000 in sales tax revenue is lost to the City and County of San Francisco by reason of such exemption; and

RESOLVED, That the Board of Supervisors of the City and County of San Francisco does hereby memorialize the President to request and the United States Congress to appropriate in lieu payments to the City and County of San Francisco and other local governmental entities as reimbursement for revenue lost because of property and sales tax exemptions for foreign consulates and consular employees in the United States; and, be it

SUPPORTING THE BASIN PLAN TASK FORCE RECOMMENDATIONS AND URGING THE REGIONAL WATER QUALITY CONTROL BOARD TO APPROVE THESE AMENDMENTS TO THE BASIN PLAN

WHEREAS, The San Francisco Bay/Delta estuary is a resource of inestimable economic and environmental value to the State of California and the nation; and

WHEREAS, The State Water Resources Control Board has determined that the Bay has suffered biological degradation due to long-term exposure to toxicants discharged to the Bay/Delta estuary and the Environmental Protection Agency has found that the estuary is under stress leading to the decline of the striped bass and other fish species that once supported thriving commercial fisheries due to toxic pollutant loadings, selenium, and the loss of wetlands; and

WHEREAS, The Regional Water Quality Control Plan for the San Francisco Bay (Basin Plan) serves as the water quality management guide for all activities of the San Francisco Regional Water Quality Control Board (Regional Board) and is now being reviewed pursuant to the Clean Water Act and federal regulations requiring a triennial review; and

WHEREAS, The current Basin Plan has failed to reverse the decline of the striped bass and other aquatic life; and

WHEREAS, a Basin Plan Task Force composed of representatives from the Audubon Society (Golden Gate and Santa Clara Valley Chapters), The Bay Institute, Citizens For A Better Environment, Committee for Water Policy Consensus, Environmental Defense Fund, Fisherman's Wharf Association, Marine Conservation League, Oceanic Society (San Francisco Bay Chapter), Pacific Coast Federation of Fishermen's Associations, Peninsula Conservation Center, Save San Francisco Bay Association, San Francisco Tomorrow, Sierra Club, United Anglers and Urban Creeks Council have proposed amendments to the Basin Plan; now, therefore, be it

WHEREAS, Economic studies indicate an estimated six million new jobs will be created by the year 2000, most of them in service-orientated industries requiring trained professionals; and

WHEREAS, California is a worldwide leader in higher education, producing the scientists, doctors, engineers and teachers who help attract new industry and jobs to California; and

WHEREAS, California's institutions for higher education, the University of California, the California State University and the California Community Colleges, must maintain state-of-the-art instructional and reasearch facilities to keep up with the demand for skilled professionals, and to otherwise provide vocational training; and

WHEREAS, Enrollment at the campuses continues to increase, coupled with an increased demand by students for programs in the high-technology sciences and the need to adapt to that change; and

WHEREAS, Nearly all of the 134 campuses in the UC, CSU and CCC systems need to carry out new construction or renovate existing facilities to keep pace with the current demand; and

WHEREAS, Traditional funding for such construction comes from tidelands oil revenues, which this year have been seriously depleted due to the cut in oil prices, reducing 1986-87 funds to roughly one quarter of what was budgeted; and

WHEREAS, Proposition 56, the Higher Education Facilities Bond Act of 1986 on the November 4 ballot would provide $400 million in general obligation bonds to finance new construction and renovation projects at the various campuses and help fill the gap created by the reduced tidelands oil revenues; and

WHEREAS, all projects scheduled for completion in 1986-87 have been approved by the Legislature and the Governor, and are dependent upon passage of Proposition 56; and

WHEREAS, Proposition 56 provides UC and CSU campuses in San Francisco County with $3,283,000 in construction funds and the community colleges with a proportional share of $35 million for instructional equipment; and

WHEREAS, San Francisco County and its various communities would enjoy the benefits of continued quality higher education; now, therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco endorses Proposition 56 on the November 4 ballot as necessary to maintain quality higher education and to further its readiness for preparing students in the disciplines which benefit our county and the State of California.

Section 729.1. West Portal Avenue Neighborhood Commercial District. Located in the southwestern part of the city, the West Portal Avenue Neighborhood Commercial district stretches for three blocks along West Portal Avenue and extends one block east along Ulloa Street from the Twin Peaks Tunnel entrance to Claremont Boulevard. West Portal Avenue provides a good selection of goods and services for the surrounding single-family residential neighborhoods. The district attracts customers mainly from the surrounding West of Twin Peaks and Sunset neighborhoods, as well as those from the Sunset neighborhoods. The lively, small-scale retail frontage is interrupted at several locations by large-scale financial institutions which take up a high amount of commercial ground-story frontage. More than half of the number of medical, professional and business offices are located at the ground level. Except for one three-movie theater complex, West Portal offers no entertainment uses and its restaurants are mainly family-oriented.

The West Portal Avenue district controls are designed to preserve the existing family-oriented, village character of West Portal Avenue. The building standards limit building heights to 26 feet and two stories and maintain the existing pattern of rear yards at the ground level and above. The height, bulk and design of new development, especially on large lots, should respect the small-scale character of the district and its surrounding residential neighborhoods. Lot mergers creating large lots are discouraged. Individual non-residential use sizes require Conditional Use above 2500 square feet and are restricted to 4000 square feet as an absolute limit to conform with the existing small use sizes in the district.

Special controls on commercial uses are designed to protect

the existing mix of ground-story retail uses and prevent further intensification and congestion in the district. No new financial services are permitted. Because the district and surrounding neighborhoods are well served by the existing number of eating and drinking establishments, new bars, restaurants and take-out food generally are discouraged: any proposed new establishment should be carefully reviewed to ensure that it is family-oriented, and will not involve high-volume take-out food or generate traffic, parking, or litter problems. Fast-food restaurants are prohibited. Medical, business or professional services are permitted at the first two stories, but additional ground-story locations should be closely monitored to ensure that the current balance between retail and office uses is maintained. Existing service stations are encouraged to continue operating, but changes in their size, operation, or location are subject to review. Other automotive uses are prohibited. The neighborhood-oriented, retail character of the district is further protected by prohibiting hotels and non-retail uses. The daytime orientation of the district is maintained by prohibitions of entertainment uses and late-night commercial operating hours.

Housing development is limited. Existing residential units are protected by limitations on demolition and prohibition of upper-story conversions; new construction should be carefully reviewed to ensure appropriate scale, design and compatibility with adjacent development.

MEMORIALIZING HER HONOR, THE MAYOR, AND THE CHIEF ADMINISTRATIVE OFFICER JOINTLY TO INITIATE THE PLANNING AND DEVELOPMENT ~~, AND CONSTRUCTION~~ OF A NEW CITY OFFICE BUILDING ~~IN THE CIVIC CENTER AT POLK AND MCALLISTER STREETS~~ AT POLK AND MCALLISTER STREETS AND A NEW MAIN LIBRARY BUILDING AT MARSHALL SQUARE, AND FOR THE RELOCATION OF THE JUDICIAL OFFICES OF GOVERNMENT IN CITY HALL TO APPROPRIATE SPACE. ~~THE MAIN LIBRARY BUILDING ON UNITED NATIONS PLAZA~~.

10/21/86 10/27/86

WHEREAS, The City and County of San Francisco is paying approximately $4,000,000 annually in rent to private landlords for the housing of numerous City departments in the Civic Center area, including the Public Utilities Commission, City Attorney, Controller, and Department of Public Works; and

WHEREAS, The consolidation in one building of these City departments dispersed throughout Civic Center would save the taxpayers approximately $4,000,000 annually in rental payments and would effect other organizational economies and efficiencies; and

WHEREAS, The property located at the northwest corner of Polk and McAllister Streets, owned by the City and County of San Francisco since 1912, deeded to the City at that time for "Civic Center purposes," and currently leased as a parking lot, is underutilized and a wasted asset which could have a highest and best use as the cornerstone for construction of a new City office building to comprise that lot, the current premises at 450 McAllister Street, and, potentially, the air space above the Pioneer Society of California building at 456 McAllister Street; and

/ / /

WHEREAS, The residents of San Francisco deserve a main library of national caliber and the current facility is too small to accommodate the full public display of all the library's excellent collection; and

WHEREAS, The Public Library Commission and the Friends of the Library have long made known their desire that a new main library building be constructed at Marshall Square and the Friends of the Library are committed to the raising of private funds partially to offset the cost of such construction; and

WHEREAS, The cramped, inadequate quarters of the judicial offices of government in City Hall can be effectively and efficiently remedied by relocating those offices and functions, including the Municipal and Superior Courts, Grand Jury, law library, small claims assistance center, and Sheriff's Bailiffs, to an appropriate space ~~the then vacant main library building on United Nations Plaza~~; and

10/21/86 BST

WHEREAS, The relocation of the judicial offices of government would free approximately 75,000 square feet of space in City Hall for relieving the congested office conditions which prevail throughout the rest of City Hall; and

WHEREAS, A property at Army and Evans Streets currently owned by Fry's Metals, Inc. and Federated Metals Corporation is for sale and is under consideration by the City and County as a potential towed vehicle storage and crushing facility; and

WHEREAS, The purchase of such property would result in removal of the property from the real property tax roll of the City and County of San Francisco, and a consequent loss in tax revenue to the City and County of San Francisco; and

WHEREAS, The proposed purchase of such property contemplates the participating of the City and County of San Francisco in the business activity of storing and crushing towed vehicles; and

WHEREAS, The Parkview Heights development homes would have the proposed vehicle storage and crushing facility directly within their view and would potentially suffer the negative effects of noise, pollution and increased traffic generated by such a facility; and

WHEREAS, Due to the long-term nature of prescriptions filled under the mail-order program, the program also accounts for wasted costs and drugs when long-term medications are discontinued, can lead to accidental overdoses when such large quantities of medication are being maintained in the patients' household, and can result in unnecessary and potentially dangerous drug interactions if the patient relies on the mail-order pharmacy for long-term, chronic medications and a local pharmacy for short-term, acute medications and does not have his or her prescription records located together in one facility; and

(Automobile Wrecking Operations)

AMENDING INTERIM ZONING CONTROLS IMPOSED BY RESOLUTION No. 895-85 TEMPORARILY PROHIBITING THE GRANTING OF CONDITIONAL USE PERMITS FOR AUTOMOBILE WRECKING OPERATIONS UNLESS ADDITIONAL SPECIFIED CONDITIONS ARE MET.

WHEREAS, The Board of Supervisors is authorized by City Planning Code Section 306.7 to impose interim zoning controls by the adoption of a resolution; and

WHEREAS, The Board adopted Resolution No. 895-85, approved on October 18, 1985, imposing interim zoning controls for eighteen months to temporarily prohibit the granting of conditional use permits for automobile wrecking operations unless certain specified conditions are met; and

WHEREAS, An amendment to these controls is desirable in order to allow enough locations for the storage of vehicles to serve the need in the City, while certain restrictions on new locations are not necessary in one area of the City which contains appropriate use districts but where there is little concentration of existing similar uses, with their effects on the community; and

WHEREAS, The proposed ordinance attached hereto as Exhibit 1, which has been approved as to form by the City Attorney and is incorporated herein by reference, contains amendments to the interim zoning controls imposed by Resolution No. 895-85 which would allow an exemption from certain restrictions for automobile wrecking operations which are in an area containing appropriate use districts but outside the area where existing wreckers are concentrated in the southeast section of the City; and

WHEREAS, The continued imposition of the controls imposed by Resolution No. 895-85 is necessary to enable the Board of Supervisors and the City Planning Department to study appropriate restrictions for automobile wrecking operations so as to insure minimum disruption of residential and commercial ares by such uses, which have a history of noxious and unsightly operations, and to devise permanent controls; therefore, be it

RESOLVED, That the interim zoning controls imposed in Resolution No. 895-85 to temporarily prohibit the granting of conditional use permits for automobile wrecking operations unless additional specified conditions are met are hereby amended as set forth in the draft ordinance attached hereto as Exhibit 1, and be it

FURTHER RESOLVED, That these controls shall remain in effect for the length of time established in Resolution No. 895-85, to April 18, 1987.

DOCUMENTS DEPT.
DEC 8 1986
SAN FRANCISCO

WHEREAS, Section 101.1 of the San Francisco Planning Code requires certain findings be made before the San Francisco Planning Code may be made; and

WHEREAS, There is currently pending before the Board of Supervisors an emergency ordinance that would amend Section 205.2 of the San Francisco Planning Code to permit the granting of a temporary permit in any M-1 or M-2 district for the operation of automobile wrecking operation where certain conditions are met; and

WHEREAS, The San Francisco Zoning Administrator and a representative of the Mayor's Office have indicated that in any temporary permit granted allowing the operation of an automobile wrecking business in San Francisco, there will be contained a condition prohibiting the operation of a retail automobile parts operation by that automobile wrecking business on its temporary San Francisco site. This condition will not preclude the automobile wrecking business from removing and selling as scrap those parts of the automobile that must be removed before the automobile may be crushed. Further, this condition will not preclude the automobile wrecking business from storing towed vehicles for the requisite lien period and thereafter selling the vehicle. Finally, the condition will not prevent the automobile wrecking business from crushing the automobiles and selling the crushed vehicle to a scrap metal; therefore, be it

RESOLVED, That, pursuant to Section 101.1 of the San Francisco Planning Code, this Board of Supervisors makes the following findings regarding the adoption of the Ordinance amending Section 205.2 to permit temporary approval of auto wrecking operations and regarding the Amendment to Resolution 895-85 that temporarily prohibited the granting of conditional use permits for automobile wrecking operations:

1. With regard to finding requirements 1, 2 and 3, the Board of Supervisors finds that the legislation addresses the need to remove from City streets vehicles that have been abandoned. These vehicle have become a blight on residential neighborhoods and pose a safety and health hazard to residents of those neighborhoods. The inability of the City to grant authorization for the use of space in the City to which abandoned vehicles can be removed has resulted in a growing accumulation of these abandoned vehicles on the streets of San Francisco especially in residential areas.

Though the authorization of these facilities could have some impact on neighboring residential areas, the temporary authorization can only last for one year and in both the temporary and conditional use authorization processes the Zoning Administrator or City Planning Commission is authorized to impose conditions that will mitigate the impacts upon surrounding residential neighborhoods. When balanced against adverse impact on residential neighborhoods attending the accumulation of abandoned vehicles, the impact that temporary and conditional use authorization for automobile wrecking and storage facilities will have on neighboring residential areas is insignificant.

2. With regard to finding requirement No. 4, the Board of Supervisors finds that legislation will have no effect upon the relationship between commuter traffic and Muni transit service or

the availability of street and neighborhood parking. However, the inability of the City to remove abandoned vehicles because it may not authorize wrecking and storage facilities exacerbates an already severe shortage of parking in residential areas because the increasing numbers of abandoned vehicles are taking up space on the streets that could be used for residential parking.

3. With regard to finding No. 5 the Board of Supervisors finds that the proposed legislation will have no effect upon maintaining a diverse economic base. However, employees engaged in the removal storage and wrecking of abandoned vehicles are likely to be residents of the City and hence this legislation will promote employment of San Francisco residents.

4. With regard to finding No. 6 the Board of Supervisors finds that the accumulation of abandoned vehicles on the streets impairs the ability of the City's emergency service vehicles and personnel to move about the City in event of earthquakes or disaster. By facilitating the authorization of storage and wrecking facilities to which abandoned vehicles may be removed, this ordinance will promote the City's preparedness to protect against injury or loss of life in the event of earthquakes.

5. With regard to finding No. 7 the Board of Supervisors finds that the adoption of this legislation will have no impact upon landmarks and historic buildings.

6. With regard to finding No. 8 the Board of Supervisors finds that this legislation will have no impact upon parks and open spaces and their access to sunlight. The authorization of storage and wrecking facilities could affect vistas. However, the Zoning Administrator's or City Planning Commission's authority to condition temporary and conditional use authorizations by appropriate screening will minimize this impact.

[Water Pollution]
URGING THE BAY REGIONAL WATER QUALITY CONTROL BOARD TO STRENGTHEN CONTROL OF TOXIC DISCHRAGE INTO BAY WATERS IN THE PENDING THREE YEAR BASIN PLAN.

WHEREAS, Recent tests of Bay water near the discharge area of the Chevron USA oil refinery in Richmond had disclosed an alarming degree of death and genetic disfigurements in striped bass, sand dabs, sturgeon and shrimp; and

WHEREAS, An alarming rate of death among aquatic life occurs as a result of the discharges, in the amount of 12 million gallons daily, by Chevron, containing chromium, lead, nickel, zinc, and petroleum hydrocarbons; and

WHEREAS, The use of stickleback minnows to test the effects of dischraged water is inappropriate because these minnows are extremely resistant to the adverse effects of polluted water, while the use of more sensitive fish actually found in the Bay will give a more realistic test result of the toxicity of Chevron's discharged water; and

WHEREAS, The discovery of striped bass with eroded and missing fins, and dungeness crabs with missing limbs, clearly indicates that the poisoning of living organisms in the food chain in Bay waters may have grave consequences for the consuming public which eats seafood; and

WHEREAS, The California Department of Fish and Game has called for more sensitive testing of pollutants in discharge water from industrial operations such as the Chevron oil refinery; now, therefore, be it

RESOLVED, That the Board of Supervisors urges the Bay Regional Water Quality Control Board to adopt strict controls of toxic discharges in Bay area waters, and to adopt stronger, more realistic testing procedures, including the use of more sensitive fish species in such tests to determine the deleterious effects of polluntants in commercial water discharges; and be it

FILE NO. 431-86-2 11/24/86 RESOLUTION NO. 911-86

DECLARATION OF INTENTION TO ORDER THE ESTABLISHMENT OF A PEDESTRIAN MALL ON COMMERCIAL STREET FROM SANSOME STREET TO BATTERY STREET.

DOCUMENTS DEPT.

WHEREAS, The Board of Supervisors of the City and County of San Francisco finds that there is need to separate pedestrian travel from vehicular travel in certain areas in said City and County, and that public interest, safety and convenience will be served by such separation; and

WHEREAS, Said Board further finds and declares that such objective can, in part, be accomplished by the establishment of pedestrian malls; and

WHEREAS, It is deemed by said Board that Commercial Street from Sansome Street to Battery Street, as shown on Department of Public Works Drawing SUR 1186, on file in the Office of the Clerk of said Board of Supervisors, is one of such areas where separation of pedestrian travel from vehicular travel is desired; and

WHEREAS, The establishment of a pedestrian mall on said portions of Commercial Street will not unduly inconvenience vehicular traffic; and

WHEREAS, The City Planning Commission has reviewed and approved the creation of the pedestrian mall and the improvements proposed to be constructed in the pedestrian mall area; and

WHEREAS, The costs and expenses for the establishment, improvement, and beautification of said mall area shall be paid for by Embarcadero Center West and the proposed improvements will enhance and beautify the surrounding areas; and

WHEREAS, It has been authorized by said Board that the whole or a stated portion of the damages, if any, allowed or awarded to any property owner by reason of the establishment of the pedestrian mall shall be paid for from the general funds of said City and County; now, therefore, be it

RESOLVED, That it is the intention of this Board of Supervisors to

11/24/86 al

order the establishment of a pedestrian mall on said portions of Commercial Street; and, be it

FURTHER RESOLVED, That it is also the intention of this Board to order permanent closing of said portions of Commercial Street to all vehicular traffic.

Said establishment of pedestrian mall and prohibition of vehicular traffic shall be done and enacted in the manner and in accordance with the provisions of the Pedestrian Mall Law of 1960, Division 13, of Streets and Highways Code, of the State of California; and notice is hereby given that on the 30th day of March ~~1986~~ 1987, beginning at ~~2:00~~ 3:00 P.M., the Board of Supervisors will hear all persons interested in or objecting to the proposed establishment of said pedestrian mall and prohibition of vehicular traffic related thereto.

Any and all persons having any objection to the establishment of said pedestrian mall and the prohibition of vehicular traffic may file a written protest with the Clerk of said Board of Supervisors at any time not later than the hour so fixed for the hearing.

Any person owning or having any legal or equitable interest in any real property which might suffer legal damage by reason of the establishment of said proposed pedestrian mall may file a written claim of damages with said Clerk of the Board of Supervisors at any time not later than the hour so fixed for hearing. Such written claim must describe the real property as to which the claim is made, must state the nature of the claimed damage thereto, and must state the amount of damages claimed. Failure to file such written claim within the time provided shall be deemed a waiver of any claim for damages or compensation and shall operate as a bar to any subsequent action seeking to prevent the establishment of said pedestrian mall or to recover damages on account of such establishment.

The improvement and beautification of the mall area mentioned above shall include, but not be limited to, stairs, a stepped ramp, and other improvements

over Commercial Street west of Battery Street and a subsurface tunnel below Commercial Street at Battery Street in conjunction with the Embarcadero Center West project.
